

## SCBA-G Combination SCBA/PAPR

Today's Emergency Responders need to be prepared for the unexpected. Draeger's SCBA-G provides them with the versatility to meet evolving threats with long-duration breathing protection.

The SCBA-G is a modular combination SCBA/PAPR designed to provide long-duration breathing protection to Emergency Responders. Utilizing proven, tested technology, the SCBA-G is ideal for missions requiring long entry/egress or involve unknown elements that may require more or less protection. Without exposure to the environment, the user chooses the level of protection — compressed or filtered air.

### Features

- Draeger AirBoss® PSS100 SCBA
- C420 PAPR technology
- New M53 Military mask that enables positive or negative pressure modes
- Modular design providing the option of a standard, stand alone SCBA or CBA (Combination Breathing Apparatus)
- Live-agent tested/proven COTS
